DATABASES – ON CAMPUS AND REMOTELY ACCESSED
Find links at http://www.swcu.edu/databases

**EBSCOhost – Periodicals & Journals**
(If school website is down go to URL: http://search.epnet.com)
Thousands of full-text & abstracted articles in a variety of fields. Abstracted articles provide information on the content and scope of an article and are therefore useful and may be cited in a research work. Note: EbscoHost is not considered a web site or an Internet resource. It is merely being delivered via the Internet to subscribers to the database.

**OCLC FIRSTsearch – WORLD CAT**
(If school website is down go to URL: http://newfirstsearch.oclc.org)
OCLC Catalog of books and other materials in libraries worldwide. Useful for creating bibliographies, identifying correct and complete title or author information or locating libraries in the area that may have that all information book or resource.

Auth. 100137985
Password: fxg6erase

**SIRS KNOWLEDGE SOURCE**
Lots of basic overview information on many common research paper topics. Look for the “Toolbox” at the top of the page for information on writing research papers and citing sources.
URL: http://sks.sirs.com

Username:OK57527
Password: 73008

**LIRT Network**
(If school website is down go to URL: www.lirn.net/services)
A gateway to numerous databases including: Credo; ProQuest; Books in Print; InfoTrac.

URL: www.lirn.net/services
Institutional ID: 81018

A word about “Internet Resources”: Internet resources are considered to be “websites” or journals/periodicals that exist nowhere else than on a website. So when an instructor says “no more than two internet sources” these do not include the databases; they are the same as the print version and are only being delivered in an additional electronic format.
